SUMMARY

Software Engineer with 3 years of experience in backend development, automation and machine learning. Proficient in building production-ready applications using AI, Cloud & modern Software Engineering practices.

WORK EXPERIENCE

Visteon Corporation

Jun 2025 - Present

Application Management Engineer – IT, Power BI, Oracle DWH

Van Buren, MI, USA

- **Migrated** legacy Qlik SQL logic to Oracle for 8+ tables (5M records), ensuring compatibility.
- **Validated Data and Power BI** reports post-ETL to ensure 100% data accuracy across Global Plants.
- Resolved defects in an PL/SQL script; collaborated with a data analyst to implement and test **delta load logic** for incremental data processing.
- Implemented **Role-Based Access Control** by organizing 50+ users into Azure AD groups, strengthening access control.

Intel Corporation

May 2024 - Dec 2024

Software Engineer Intern – Machine Learning, Software Automation

Santa Clara, CA, USA

- Designed and deployed a media file favorites feature across **Android middleware**, enabling easy access to multimedia files for 500+ **Harley-Davidson** IVI users.
- Developed **AIDL interfaces** and business logic for 3 multimedia features enabling efficient **Inter Process Communication** between android services.
- Implemented Factory Reset to enforce **disaster recovery** by handling media database states across the vehicle battery cycle, enforcing 100% fault tolerance.
- Resolved 45% of **JIRA defects** in audio playback & browsing by root cause analysis of logs.

Visteon Technical and Services Center

Jan 2021 - Jul 2023

Software Engineer 2 – Vehicle multimedia, C, Java, SQLite, IVI

Bangalore, KA, India

- Developed and enhanced **MediaPlayer** and CoreMedia components to support robust playback of audio and video streams in the **in-vehicle infotainment(IVI) system**.
- Designed and implemented **AIDL-based interfaces** and IPC mechanisms for multimedia features, enabling seamless cross-process communication for media browsing and playback.
- Implemented **Factory Reset logic** for the media database, preserving playlists and playback states across vehicle power cycles, ensuring 100% recovery in disaster scenarios.
- Developed **Favorites** feature in Android middleware, enabling quick access to songs, albums, and playlists for 500+ Harley-Davidson IVI users.

SKILLS

Languages: Python, Java, C/C++, SQL, React, HTML, CSS

Backend Development: REST APIs, ETL Pipelines, PostgreSQL, Oracle DB, SQLite, SSMS.

Cloud & DevOps: AWS, Azure, Docker, cMake, Jenkins, CI/CD, GitLab, Terraform, Data modeling

Tools & Practices: Json, JIRA, Software Automation, Agile, Version Control, Distributed systems

Systems & Platforms: Android Multimedia, Automotive OS, Android Debug Bridge, Linux, GenAI

Certifications & Awards: AWS Cloud Practitioner (2025), Visteon Spot Award – Excellence (2022)

KEY PROJECTS

DoctorAssist.AI (LLM, GenAI, NLP, Gemini Pro API)

Apr 2025

- Developed a **natural language-to-SQL** query engine to streamline healthcare data access, enabling clinicians to retrieve patient information efficiently using conversational queries, improved access speed by 40%.

Used Car Data Analysis (AWS, EC2, S3, boto3, PySpark)

Nov 2024

- Designed a **distributed data pipeline** to analyze large-scale used car listings and extract pricing insights, improving dealership pricing strategy efficiency by 25%.

EDUCATION

Indiana University Bloomington, IN, United States

Graduated

Master of Science in Computer Science - Software Engg, Adv Database, Applied ML

GPA 3.87

Visvesvaraya Technological University, KA, India

Graduated

Bachelor of Engineering in Computer Science - Algorithms, OS, Networks, Full Stack Dev

GPA 8.08
