SUMMARY

Software Engineer with 3 years of experience in backend development, automation, and machine learning. Proficient in building production-ready applications using modern software engineering and cloud technologies.

WORK EXPERIENCE

Visteon Corporation

Jun 2025 - Aug 2025

Application Management Intern – Power BI, Oracle DB

Van Buren, MI, USA

- **Migrated** legacy Qlik SQL logic to Oracle for 8+ tables (5M records), ensuring compatibility.
- Built and optimized **Azure Data Pipelines**, reducing report load time by 25%.
- **Validated Power BI** reports post-ETL to ensure 100% data accuracy across Global business units.
- Implemented **Role-Based Access Control** in Azure by organizing 50+ users into business groups, strengthening access control.

Intel Corporation

May 2024 - Dec 2024

Software Graduate Intern – ML, Software Automation

Santa Clara, CA, USA

- Automated bug filing by handling **RESTful APIs** with **Python script** to interact with external endpoints, reducing manual effort by 70%.
- Reduced mundane developer activity by 65% by collaborating with cross-platform team to build an **ML-based workflow** using DBSCAN clustering to categorize SoC design paths and automate waiver codes.
- Optimized IO budgeting, reducing 4 iterations by training an **XGBoost model** to predict IO delays.
- Enabled **system health monitoring** by building a data pipeline using **python scripts** to extract raw data, structure it and load timing reports into Power BI, improving data accessibility by 60%.

Visteon Technical and Services Center

Jan 2021 - Jul 2023

Software Engineer 2 – Android multimedia, C, Java, SQLite

Bangalore, KA, India

- Developed **AIDL interfaces** and business logic for 3 multimedia features enabling efficient **IPC**.
- Implemented Factory Reset to enforce **disaster recovery** by handling media database states across the vehicle battery cycle, enforcing 100% fault tolerance.
- Designed and deployed a media file favorites feature across **Android middleware**, enabling easy access to multimedia files for 500+ **Harley-Davidson** IVI users.
- Resolved 45% of **JIRA defects** in audio playback & browsing by root cause analysis of logs.

SKILLS

Languages: Python, Java, C/C++, SQL

Backend Development: REST APIs, FastAPI, ETL Pipelines, PostgreSQL, Oracle DB, SQLite

Cloud & DevOps: AWS, Azure (Pipelines, Storage), Google Cloud Platform, Linux, Jenkins, CI/CD

Tools & Practices: JIRA, PyTest, Software Automation, Agile, Docker, Version Control

Systems & Platforms: Android Multimedia, Automotive OS, Microservices, Linux Environments

Certifications & Awards: AWS Cloud Practitioner (2025), Visteon Spot Award – Excellence (2022)

KEY PROJECTS

DoctorAssist.AI (Streamlit, GenAI, NLP, Gemini Pro API)

Apr 2025

- Developed a **natural language-to-SQL** query engine to streamline healthcare data access, enabling clinicians to retrieve patient information efficiently using conversational queries, improved access speed by 40%.

Used Car Data Analysis (AWS, EC2, S3, boto3, PySpark)

Nov 2024

- Designed a **distributed data pipeline** to analyze large-scale used car listings and extract pricing insights, improving dealership pricing strategy efficiency by 25%.

Delivery Management Service (React.js, Node.js, MongoDB, Google Maps API)

Dec 2023

- Built an intra-city parcel delivery platform enabling **instant pickups** alongside regular courier, reducing delivery time by 50% and increasing operational transparency.

EDUCATION

Indiana University Bloomington, IN, United States

Graduated

Master of Science in Computer Science - Software Engg, Adv Database, Applied ML

GPA 3.87

Visvesvaraya Technological University, KA, India

Graduated

Bachelor of Engineering in Computer Science - Algorithms, OS, Networks, Full Stack Dev

GPA 8.08
